

Pinebrook Animal Hospital friends and family,

Please take a moment to review these changes to our appointment policies :

- **Curbside check in will continue- please call or text when you arrive for appointments or to pick up food/medication.**
- **We will begin to allow clients to accompany their pet into the office for certain scheduled exams. One pet parent will be permitted to enter the office and exam room per patient. Curbside style appointments will still be offered if preferred. Please let us know when you schedule your visit what your preferences are.**
- **If you have small children, please take advantage of our continued curbside style appointments or request a drop off exam.**
- **We ask that you kindly follow current Summit County and CDC masking recommendations: "The CDC recommends people, even those who are fully vaccinated, wear masks in public indoor settings."**

In other exciting news, we are expanding! Pinebrook Animal Hospital will soon occupy the suite next door as well as our current space. Renovations are predicted to be completed mid to late September. Keep your eyes peeled for updates. We can't wait to welcome you all into our new space!
